LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 1 – APPLICATION AND REFERENCE

1.1 APPLICATION OF PRICE LIST

1.1.1 This Price List contains the regulations, terms, conditions, and maximum rates and charges applicable to local and interexchange and network services and equipment furnished by Intrado Safety Communications, Inc., hereinafter referred to as Intrado Safety or the Company.

1.1.2 The Company's Florida service territory is statewide.

1.1.3 Service is available where facilities permit.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 1 – APPLICATION AND REFERENCE (CONT'D.)**1.2 EXPLANATION OF ABBREVIATIONS**

ANI	Automatic Number Identification
ALI	Automatic Location Identification
CAMA	Centralized Automated Message Accounting
CLEC	Competitive Local Exchange Carrier
CMRS	Commercial Mobile Radio Service
CO	Central Office
Cont'd	Continued
CSP	Communications Service Provider
FCC	Federal Communications Commission
ILEC	Incumbent Local Exchange Carrier
ICB	Individual Case Basis
IXC	Interexchange Carrier
IP	Internet Protocol
MSAG	Master Street Address Guide
MLTS	Multi-line Telephone Service
NCAS	Non-Call Path Associated Signaling
NPA	Numbering Plan Area
POI	Point of Interconnection
POP	Point of Presence
PRI	Primary Rate Interface
PBX	Private Branch Exchange
pANI	Pseudo-ANI
PSAP	Public Safety Answering Point
SOI	Service Order Information
SS7	Signaling System 7
VoIP	Voice over Internet Protocol

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 1 – APPLICATION AND REFERENCE (CONT'D.)

1.3 PRICE LIST FORMAT

1.3.1 Location of Material

1.3.1.1 Section 1 provides the following sections in this Price List.

- Subject Index – an alphabetical listing to find the desired section.
- Table of Contents – a numerical listing to find the desired section and page.

1.3.1.2 Each individual section in the Price List provides a Subject Index for the material located within that section.

1.3.1.3 Obsolete Service Offerings

Obsolete service offerings are identified in the Price List by adding 100 to the current section number, i.e., obsolete items from Section 5, will be found in Section 105. This section is then filed behind Section 5.

1.3.2 OUTLINE STRUCTURE

Paragraph Numbering Sequence - There are various levels of alphanumeric coding. Each level of coding is subservient to its next higher level. The following is an example of the numbering sequence suggested for use in Price Lists.

2.1
2.1.1.
2.1.1.1.1.
2.1.1.1.1.1.

1.3.3 PAGE NUMBERING

Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Price List. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between sheets 14 and 15 would be 14.1.

1.3.4 PAGE REVISION NUMBERS

Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 1 – APPLICATION AND REFERENCE (CONT'D.)

1.3 PRICE LIST FORMAT (CONT'D.)

1.3.5 Rate Tables

Within rate tables, four types of entries are allowed:

- Rate Amount
The rate amount indicates the dollar value associated with the service.
- A dash “-”
The dash indicates that there is no rate for the service or that a rate amount is not applicable under the specific column header.
- A footnote designator “[1]”
The footnote designator indicates that further information is contained in a footnote.
- ICB
The acronym “ICB” indicates that the product/service is rated on an individual case basis.

1.3.6 Check Sheets

Check Sheets: When a Price List filing is made with the Florida Public Service Commission, an undated check sheet accompanies the Price List filing. The check sheet lists the pages contained in the Price List, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The Price List user should refer to the latest check sheet to find out if a particular page is the most current on file with the Florida Public Service Commission.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 1 – APPLICATION AND REFERENCE (CONT'D.)

1.4 EXPLANATION OF CHANGE SYMBOLS

SYMBOL	EXPLANATION
(D)	To signify discontinued material
(I)	To signify rate increase
(M)	To signify material moved from or to another part of the Price List with no change, unless there is another change symbol present
(N)	To signify new material
(R)	To signify rate reduction
(T)	To signify a change in text or regulation but no change in rate or charge

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 1 – APPLICATION AND REFERENCE (CONT'D.)

1.5 TRADEMARKS, SERVICE MARKS AND TRADE NAMES

Intelligent Emergency Network® Registered Service Mark of Intrado Safety Communications, Inc.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING

9-1-1

A local exchange service using a three-digit telephone number used to report an emergency situation requiring a response by a public agency such as a fire department or police department.

9-1-1 Failure or Outage

A situation where 9-1-1 calls cannot be transported to the Public Safety Answering Point (PSAP) responsible for answering the 9-1-1 emergency calls.

Access Line

An arrangement from a local exchange telephone company or other common carrier, using either dedicated or switched access, which connects a Customer's location to Company's location or switching center.

Authorized User

A person, firm, or corporation that is authorized by the Customer or joint user to be connected to the service of the Customer or joint user. An Authorized User must be specifically named in the application for service.

Automatic Numbering Identification (ANI)

A type of signaling provided by a local exchange telephone company that automatically identifies the local exchange line from which a call originates.

Automatic Location Identification (ALI)

Information transmitted while providing E9-1-1 service that permits emergency service providers to identify the geographic location of the calling party.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Basic Local Exchange Service or Basic Service

The telecommunications service that provides a local dial tone line and local usage necessary to place or receive a call within an exchange area and any other services or features that may be added by the Commission.

Building

A structure occupied by one or more Customers.

Campus

A group of two or more buildings or spaces located on a single owned continuous or contiguous property.

Central Office (CO)

A switching unit providing telecommunication services to the general public, designed for terminating and interconnecting lines and trunks. More than one CO may be located in a building.

Central Office Line

See “Exchange Access Line.”

Certified Telecommunications Provider

Providers of telecommunications local exchange service who are certified with the Florida Public Service Commission as a Local Exchange Services Provider.

Commission

Florida Public Service Commission.

Common Carrier

An authorized company or entity providing telecommunications services to the public.

Communications Service Provider (CSP)

Any provider of telecommunications service, including but not limited to ILECs, CLECs, CMRS, VoIP providers, cable companies and satellite communications providers whose customers or users dial the digits 9-1-1 to report an emergency situation requiring a response by a public agency.

Company

Refers to Intrado Safety Communications, Inc.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Customer

A person, partnership, firm, municipality, cooperative organization, corporation, or governmental agency furnished communications service by the Company under the provisions and regulations of this price list and who is responsible for paying the communication service bills and for complying with the rules and regulations of the Company.

Customer Premises

A location designated by the Customer for the purposes of connecting to the Company's services.

Dedicated

A facility or equipment system or subsystem set aside for the sole use of a specific Customer.

Demarcation Point

The point of interconnection between the Company's telecommunications facilities and terminal equipment, protective apparatus or wiring at the premise. The demarcation point location will be as close as practicable to the point at which the cable/wire enters the Customer Premises.

Dynamic ANI/ALI

A call processing arrangement utilizing a pANI number for NCAS-type call routing commonly associated with the delivery of mobile, nomadic or out-of-region calls and commonly involves a method to dynamically provide caller ALI information upon emergency call answer.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

E9-1-1 Features

The ANI, ALI database and selective routing capabilities and all other components of an E9-1-1 system, not including the transport and switching facilities.

E9-1-1 Facilities

The facilities provided by the basic emergency service provider that interconnect to the wireless providers, certificated local exchange carriers, and other services that are used to transport E9-1-1 and other emergency calls to the PSAP. The facilities may include the use of E9-1-1 tandem switches or direct trunking of E9-1-1 calls to the PSAPs.

E9-1-1 Tandem or 9-1-1 Selective Routing Tandem (Selective Router)

The switch that provides the routing and switching of 9-1-1 calls. The E9-1-1 Tandem controls delivery of the call with ANI to the PSAP and provides selective routing, speed calling, selective transfer, fixed transfer, and certain maintenance functions for each PSAP.

E9-1-1 Selective Router Trunk

A trunk from a Selective Router capable of transmitting the ANI associated with an End User call to 911. The E9-1-1 Selective Router Trunk may be between a Selective Router and a PSAP or between Selective Routers. The latter configuration may also be known as an inter-Selective Router Trunk.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

E9-1-1 Trunks

The trunks that connect from the end office serving the individual telephone that originates a 9-1-1 call to the E9-1-1 Selective Router or to a Company POI.

Emergency Service

A telecommunications service that permits the use of the local exchange network and the three-digit number 9-1-1 for reporting police, fire, medical, or other emergency situations to a PSAP and referral to a public agency. Emergency service does not include discretionary equipment purchased by, or contracted for, that is not essential to the provision of 9-1-1 or E9-1-1 service.

Emergency Telephone Service

A telephone system using the three-digit number 9-1-1 to report police, fire, medical or other emergency situations.

End User

The term “End User” means the Person that subscribes to (subscriber of record) and/or uses the Telecommunications Services provided by the Company or a CSP.

Enhanced 9-1-1 (E9-1-1)

An emergency telephone service that includes ANI, ALI (including non-listed and non-published numbers and addresses), and selective routing, to facilitate public safety response.

Entrance Facilities

Those facilities from the property line to the point at which the cable enters the premises and terminates at the protector.

Facilities

Central office equipment, supplemental equipment, apparatus, wiring, cables (outside plant) and other material and mechanisms necessary to or furnished in connection with the services of the Company.

Fiber Optic Cable

A thin filament of glass with a protective coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Geographic Area

The area such as a city, county, municipality, multiple counties, or other areas defined by a governing body or other governmental entity for the purpose of providing public agency response to 9-1-1 calls.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Governing Authority

The governing body of a state, county, city, city and county, town, of other governing body (e.g., the board of directors of a special district) that oversees the PSAP(s) within the Governing Authority's jurisdiction.

Holiday

New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, or Christmas Day.

Individual Case Basis (ICB)

A service arrangement in which the regulations, rates, charges and other terms and conditions are developed based on the specific circumstances of the individual End User.

Inside Wire

Wiring located on the building owner's/Customer's side of the demarcation point. Such wiring is deregulated. Installation and maintenance of Inside Wiring is the responsibility of the Customer or premises owner.

Local Exchange Carrier (LEC)

Refers to any person, corporation or entity that pursuant to the statutes and rules of the State of Florida and the Commission is authorized to provide local exchange telecommunications services on a resale or facilities basis.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Local Exchange Service

Refers to local service that allows a subscriber to complete calls through facilities provided for intercommunications to other telephones within a specified area without payment of toll charges. This service also provides access to and from the telecommunication network for long distance calling.

Master Street Address Guide (MSAG)

A database of street names and house number ranges within their associated communities that defines Emergency Service Zones (ESZs) and their associated Emergency Service Numbers (ESNs) to enable proper routing of E911 calls

Meet-Point

The point to which 9-1-1 calls placed by Customer end users are delivered by a third party aggregator or transit provider to the Company's facilities interconnected with the third party aggregator or transit provider.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Minimum Point of Entry

The closest practicable point to where regulated facilities of the Company cross a property line or enter a building.

Multi-Line Telephone System (MLTS)

A telephone system comprised of common control unit(s), telephone sets, and control hardware and software. MLTS includes but is not limited to network and premises-based systems such as Centrex, PBX, hybrid, and key telephone systems

National Emergency Number Association (NENA)

An international not-for-profit organization whose purpose is to lead, assist, and provide for the development, availability, implementation and enhancement of a universal emergency telephone number or system common to all jurisdictions through research, planning, publications, training and education.

Network Control Signaling

Transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charging signals), address signaling (e.g., dialing), calling and called number identification, audible tone signals (call process signals indicating reorder or busy conditions, alerting tones) to control the operating of switching equipment in the system.

Network Facilities

All Company facilities from the central office up to and including the Standard Network Interface at the demarcation point.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Non-listed service

Telephone numbers that are not published in the telephone directory but are available through directory assistance.

Non-published service

Telephone numbers that are neither published in the telephone directory nor available through directory assistance.

Nonrecurring Charge

The initial charge, usually assessed on a one-time basis, to initiate and establish service.

Point of Interconnection (POI)

The point of interface where a Customer-provided transport facility is interconnected to the Company's network.

Point of Presence (POP)

The physical location from which a Customer sends 9-1-1 calls placed by the Customer's end users to Company's network. The POP may be a CO housing a CSP's equipment, or it may be a physical location of a third party used by the Customer to deliver 9-1-1 traffic to Company's network; e.g., an emergency service gateway provider for a VoIP Customer.

Pseudo Automatic Number Identification (pANI)

A number consisting of the same number of digits as ANI, and used to query routing and ALI databases.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Person

Any individual, firm, partnership, co-partnership, limited partnership, joint venture, association, cooperative organization, limited liability corporation, corporation (municipal or private and whether organized for profit or not), governmental agency, state, county, political subdivision, state department, commission, board, or bureau, fraternal organization, nonprofit organization, estate, trust, business or common law trust, receiver, assignee for the benefit of creditors, trustee, or trustee in bankruptcy or any other service user.

Premises

See “Same Premises.”

Private Branch Exchange (PBX)

An arrangement that comprises manual and/or automatic common equipment, wiring and station apparatus, and which provides for interconnection of main station lines associated with an attendant position and/or common equipment located on the Customer’s premises or extended to another premises of the same Customer.

PBX Service

This service provides for centralized processing of exchange access by stations through groups of Central Office trunks, WATS lines, etc., or with other communication systems through voice circuits connected to the common equipment. Interconnection between stations through the common equipment is an inherent feature of the service.

Protector

An electrical device located in a central office, a Customer premises or any where along the telecommunications facility path. This device protects both the Company’s and the Customer’s property and facilities from high voltages and surges in current.

Public Agency

Any city, city and county, town, county, municipal corporation, public district, or public authority located in whole or in part within this state which provides or has the authority to provide fire fighting, law enforcement, ambulance, emergency medical, or other emergency services.

Public Safety Answering Point (PSAP)

A facility equipped and staffed to receive 9-1-1 calls from the basic emergency service provider. PSAPs operate under the direction of the governing body and are responsible to direct the disposition of 9-1-1 calls.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Routing

The central office programming required to transport a 9-1-1 call to the correct 9-1-1 Tandem.

Same Premises

All the space in the same building in which a Customer has the right of occupancy to the exclusion of others or shares the right of occupancy with others; and all space in different buildings on continuous property, provided such buildings are occupied solely by one Customer. Foyers, hallways, and other space provided for the common use of all occupants of a building are considered the premises of the operator of the buildings.

Service Order Information (SOI)

Files with end user information, conforming to NENA recommended guidelines found in “Standard Formats & Protocols” or “Standards for Private Switch E9-1-1 Database” that are needed for an E9-1-1 database management system.

Shared Facility

A facility or equipment system or subsystem which can be used simultaneously by several Customers.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Shell Records

Pre-provisioned SOI records by the Dynamic ANI/ALI method of call delivery to determine call routing and the 9-1-1 caller's ANI/ALI to be displayed at the appropriate PSAP.

Selective Routing

The capability of routing an E9-1-1 call to a designated PSAP based upon the seven-digit or ten-digit telephone number of the subscriber dialing 9-1-1.

Standard Network Interface (SNI)

A standard Federal Communications Commission (FCC) registration jack or its equivalent, which is provided, installed, owned and maintained by the Company at the Customer's premises. The SNI is placed at the point on the Customer's premises where all premises services are connected to the telecommunication's network via Company or Customer owned facilities/wire.

TDD/Text Phone

A telecommunications device for use by the hearing or speech impaired that employs graphic communication in the transmission of coded signals through a wire or radio communication system.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

Telecommunications Device for the Deaf (TDD)/Text Phone Emergency Access

Provides 9-1-1 access to individuals that use TDDs and computer modems.

Telecommunications Service Priority (TSP)

Denotes the regulatory, administrative, and operational system developed by the federal government to ensure priority provisioning and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. The FCC defines NSEP telecommunications services as those services which are used to maintain a state of readiness or to respond to and manage any event or crisis, which causes or could cause harm to the population, damage to or loss of property, or degrades or threatens the NSEP posture of the United States.

Telecommunications Relay Services

These services provides the ability for hearing- or speech-impaired individuals to communicate, by wire or radio, with a hearing individual in a manner that is functionally equivalent to communication by an individual without a hearing or speech impairment. This definition includes telecommunication relay services that enable two-way communications between an individual who uses a TDD or other non-voice terminal device and an individual who does not use such a device.

Voice over Internet Protocol (VoIP)

IP-based technology that allows real-time, 2-way voice communications over managed, dedicated private IP networks or the public Internet.

Wire Center

The building which houses the local switching equipment (central offices) from which exchange and private line services are furnished and where cable facilities are terminated which furnish telephone service within a designated wire center serving area.

Wire Center Serving Area

The area of the exchange served by a single wire center.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.1 ESTABLISHING AND FURNISHING SERVICE

These regulations are added to those pertaining to specific service items in other sections. Any change in rates, charges or regulations approved by appropriate governmental authority modifies all service terms and conditions unless otherwise specified in writing pursuant to an ICB agreement, the following terms and conditions will apply to the services.

2.1.1 Application for Service

- A. Applications for establishment of service must be made to the Company in writing. These applications become contracts upon approval by the Company and the customer or the establishment of the service, and shall be subject at all times to the lawful rates, charges and regulations of the Company.
- B. Requests from Customers for additional service or equipment must be made in writing and, upon approval of installation of the service, become a part of the original contract, except that each additional item is subject to the appropriate Price List rates, charges and initial contract period, if any.
- C. Any change in rates, charges or regulations authorized by the legally constituted authorities will act as a modification of all contracts to that extent without further notice.

2.1.2 Refusal

The Company reserves the right to refuse an application for service made by a present or former Customer who is indebted to the Company for service previously furnished, until the indebtedness is satisfied.

2.1.3 Cancellations and Deferments

When the Company advises a Customer that ordered services are available on the requested due date, and the Customer is unable or unwilling to accept service at that time, the facilities will be held available for the Customer for a 30 business day grace period. If after 30 business days the Customer has still not accepted service, regular monthly billing for the ordered services may begin, or the facilities will be released for other service order activity, and cancellation charges (non-recurring charges that would have applied had the service been installed) may be applied. These cancellation and deferment provisions apply to requests for all Company services.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.1.4 USE OF SERVICE

- A. Customer service will be furnished to business Customers for:
- The Customer;
 - The Customer's employees and representatives;
 - Customers who share the Company's service;
 - Joint users of Company provided services.
- B. Intrado Communications' services may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications facilities utilized in the provision of the Company's services.
- C. The Company's services are available for use twenty-four (24) hours per day, seven (7) days per week.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.1.5 OBLIGATION TO FURNISH SERVICE

- 2.1.5.1 The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain, and maintain with just and reasonable earnings, suitable rights and facilities, and to provide for the installation of those facilities required to the furnishing and maintenance of that service. At the option of the Company, in managing its facilities, certain regular service restrictions may be temporarily imposed at locations where new or additional facilities being constructed are not readily available to meet service demands.
- 2.1.5.6 The Company shall not be required to furnish, or continue to furnish, facilities or service where the circumstances are such that the proposed use of the facilities or service would tend to adversely affect the Company's plant, property or service.
- 2.1.5.7 The Company reserves the right to refuse an application for service made by a present or former customer who is indebted to the Company for service previously rendered pursuant to this Price List until the indebtedness is satisfied.
- 2.1.5.8 When connections are requested and facilities to provide the required connections at the CO normally designated to serve the premises of the Customer are inadequate, facilities may be furnished from another CO to provide the requested interconnection. Under such circumstances additional monthly rates and installation charges will apply.
- 2.1.5.9 The customer shall be responsible for making arrangements or obtaining permission for safe and reasonable access for Company employees or agents of the Company to enter the premises of the customer or any joint user or customer of the customer at any reasonable hour for the purpose of inspecting, repairing, testing or removing any part of the Company's facilities.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.2 ESTABLISHING AND FURNISHING SERVICE (CONT'D.)

2.2.1. Limited Communication

The Company reserves the right to limit use of its services when emergency conditions arise that cause a shortage of facilities.

2.2.2. Resale/Sharing of Service

Service on Customers' premises furnished by the Company shall not be used for performing any part of the work of transmitting, delivering, or collecting any message where any toll or consideration has been or is to be paid any party other than the Company, without written consent of the Company.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.3. TERMINATION OF SERVICE – COMPANY INITIATED

The Company may terminate service, with notice, due to:

2.3.1. Nonpayment

2.3.1.1. The Company may, by notice in writing to the Customer, in accordance with paragraph 2.6.2.9, suspend or terminate the service for nonpayment of any sum due the Company.

2.3.1.2. Exception: The Company may not use its purchase of a Customer's indebtedness, i.e., the accounts receivable from another telecommunications service provider as a basis to deny or discontinue providing its services to that Customer.

2.3.2. Abandonment

In the event of the abandonment of the service, the Company may terminate its service.

2.3.3. Abuse

Use of service that interferes with another Customer's service or that is used for any purpose other than its express intended purpose, or if a Customer or End User causes or permits any signals or voltages to be transmitted over the Company's network in such a manner as to cause a hazard or to interfere with services to other Intrado Communications Customers

2.3.4. Fraud

Abuse or fraudulent use of service includes the use of facilities of the Company to transmit a message or locate a person otherwise to give or obtain information, without the payment of a toll charge. The Company reserves the right to discontinue or refuse service because of fraudulent use of its service.

2.3.5. Unlawful Use of Service

The service is furnished subject to the condition that it will not be used for an unlawful purpose. Upon request of an order from a court, acting within its jurisdiction, advising that such service is being used or will be used in violation of law, service will be discontinued.

2.3.6. Violation of Price List

Any other violation of the regulations of the Company or this Price List, the Company may in its sole discretion, without notice, either suspend service or terminate the service without suspension.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.4. SPECIAL SERVICES

2.4.1. General

2.4.1.1. The rates and charges quoted in the Price Lists of the Company contemplate the use of service arrangements, equipment and facilities in quantities and types regularly furnished by the Company. Where equipment, facilities, or service arrangements are requested which are not provided for in the Company's applicable Price Lists, monthly rates and one-time charges, such as nonrecurring and construction charges, will apply based on the circumstances in each case.

2.4.1.2. These special equipment and service items will be provided whenever, in the judgment of the Company, there is a valid reason for providing the service requested. In such cases, the Company reserves the right to require an initial contract period commensurate with relevant circumstances.

2.4.1.3. The rates and charges specified contemplate that work will be performed during regular working hours, 9:00AM – 5:00PM, Monday – Friday except Holidays, and that work once begun will not be interrupted by the Customer. If, at the request of the Customer, work is performed outside of regular working hours, either to meet the Customer's convenience or because the time allowed is insufficient to permit completion during regular hours or if the Customer interrupts work which has begun, the Customer may be required to pay any additional costs incurred.

2.4.1.4. The rates and charges quoted in the Price Lists of the Company contemplate the use of standard procedures and practices for furnishing service, equipment and facilities. Where the Customer requests special procedures or practices, such as expedited material handling or shortened installation intervals through the use of overtime, etc., additional rates and charges will apply based on the circumstances in each case. These special practices or procedures will be provided at the discretion of the Company, depending upon each individual case.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.5. TERMINATION OF SERVICE – CUSTOMER INITIATED

2.5.1. Initial Contract Period

2.5.1.1. An initial contract period of one year will apply unless otherwise specified.

2.5.1.2. Where service is disconnected and subsequently reestablished at the same location for the same or a different Customer, a new initial contract period will apply, whether or not the equipment has been removed.

2.5.1.3. Where the provision of service requires unusual costs or involves special assemblies of equipment, or where the provision of service requires construction of facilities for possible short term use, the Company reserves the right to require an initial contract period longer than one year in addition to any construction charge that may be applicable.

2.5.2. Charges for Termination Of Service

2.5.2.1. Nonrecurring charges do not apply to disconnect service unless otherwise specified.

2.5.2.2. After the expiration of the initial contract period, service may be terminated upon reasonable advance notice to the Company and payment of all charges due to the date of termination of the services.

2.5.2.3. Prior to the expiration of the initial contract period, service may be terminated upon reasonable advance notice to the Company and upon payment of the termination charges hereinafter provided, in addition to all charges for the period service has been rendered.

2.5.3. Service Involving Unusual Cost

Where the provision of service requires construction of facilities for possible short term use, or involves unusual costs or special assemblies of equipment, the initial contract period and termination charge base will be determined by the Company in each individual case.

2.5.4. Termination Liability

Services provided via service agreements will be subject to Termination Liability.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.5 TERMINATION OF SERVICE – CUSTOMER INITIATED (CONT'D.)

2.5.4 Termination Liability (Cont'd.)

2.5.4.1. Definitions

Minimum Service Period

When services are provided under a service agreement, a Minimum Service Period may be established. This would be the period of time that the 100% factor of the Termination Liability Charge would apply.

2.5.4.2. Complete Disconnect

If the Customer chooses to completely discontinue service, at any time during the term of the agreement, a termination charge will apply. The termination charge will be determined on an individual case basis.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.6. PAYMENT FOR SERVICE

2.6.1. Customer Responsibility

The Customer is responsible for payment of all charges for facilities and services furnished the Customer, including charges for services originated, or charges accepted, at such facilities.

2.6.2. Payment of Bills

2.6.2.1. Customers will either be billed directly by the Company or its intermediary, or charges will be included in the Customer's regular bill pursuant to billing and collection agreements established by the Company or its intermediary with the applicable customer.

2.6.2.2. Unless otherwise specified, all charges for Company-provided services, equipment and facilities, exclusive of usage or transaction sensitive charges, start the day after service is installed, continue through the day service is disconnected and are payable monthly in advance. Charges for usage or transaction related services are payable monthly except the Company reserves the right to require payment of such charges at more frequent intervals.

2.6.2.3. When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.

2.6.2.4. In the event a Customer is indebted to the Company for charges and services previously rendered in Florida, or for service under one or more accounts at the same location, and the Customer does not pay the charges or satisfy such indebtedness, the Company may charge and bill such indebtedness against other accounts of this Customer.

2.6.2.5. In the event that payment from a Customer is less than the total amount of all charges owing to the Company and the Customer does not specifically designate the manner in which he wishes to apply said payment, then the Company may apply all or any part of the payments received to such accounts or indebtedness in any manner that the Company deems appropriate.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.6.2 PAYMENT FOR SERVICE (CONT'D.)

2.6.2.6. Except as otherwise specified, where the rate to be charged for a particular service is determined by applying a percentage of similar factor to a quoted rate, and such computation results in a fraction, the charge for the service shall be computed to the nearest cent, a half cent being increased to the next higher cent.

2.6.2.7. The furnishing of services, equipment and facilities and any indebtedness resulting therewith shall not result in a lien, mortgage or other security interest in any real or personal property of the Customer, unless such indebtedness has been reduced to judgment.

2.6.2.8. Service may be discontinued or refused to a Customer for the nonpayment of any sum for service furnished in the State of Florida or for the provision of facilities which also have been provided in Florida.

2.6.2.9. Unless otherwise specified, in the event it becomes necessary for service to be discontinued to a Customer for nonpayment, a written notice of at least seven days (measured from the date of mailing) will be given to the Customer advising the Customer of the amount due and the date by which the same must be paid. If the Customer fails to pay or make suitable arrangements for payment by said due date, the Company may suspend the service or discontinue the service and remove any or all equipment from the Customer's premises.

2.6.2.10. Payment of bills for service may be made by any means mutually acceptable to the Customer and the Company. Payment that is not honored or paid by the payer's designated financial institution will be considered as nonpayment. A returned payment charge is applicable to the account for each occasion that a payment is returned to the Company for reason of insufficient funds or closed account.

- | | |
|---|------------------------|
| <ul style="list-style-type: none"> • Returned Payment Charge | Maximum Charge
\$20 |
|---|------------------------|

2.6.2.11. Customers may have the following options as to the method of paying bills for Company provided service(s):

- If by U.S. Mail, by check or money order only;
- Through an agent of the Customer;
- By any means acceptable to financial institutions and the Company.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.6.2 PAYMENT FOR SERVICE (CONT'D.)

2.6.2.12. Payments received by the Company on or before the due and payable date on the Customer's bill will be considered timely, provided the following billing information is remitted with payment:

- Customer's name;
- Customer's telephone number
- Customer's address;
- Customer's Account Code (if applicable);
- Customer's account type;
- Amount of payment;
- Other information as required by the service agreement.

2.6.2.13. Payments received by the Company after the due and payable date on the Customer's bill, but at least one day before the termination date on the suspension notice, may result in discontinuance of the Customer's service unless the following billing information is remitted with the payment:

- All of the items enumerated in 2.6.2.12., and
- The final payment date before discontinuance for nonpayment.

2.6.2.14. The Company will not be responsible if a Customer's service is discontinued after payment has been remitted, unless the payment is timely, as set forth in 2.6.2.12. or, if the payment is not timely, the requirements of 2.6.2.13. have not been met.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.7. LATE PAYMENT CHARGES

2.7.1. A maximum late payment charge of 1.5% per month applies to all billed balances that are not paid by the billing date shown on the next bill unless the balance is \$45.00 or less.

2.7.2. Collection procedures, temporary disconnection of service, and the requirements for deposit are unaffected by the application of a late charge. The late payment charge does not extend the time for payment or otherwise enlarge or change the rights of a Customer. Notice of intention to pay late will not avoid this charge.

2.7.3. The late payment charge does not apply to the following:

- Bills mailed more than ten days after bill date.
- Final bills.
- One time miscellaneous bills.
- Billed amounts under dispute that are resolved to the Company's satisfaction in the Customer's favor.

2.7.4. The Company is entitled to recover from the customer the Company's cost of collection including reasonable attorney fees.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.8. ADJUSTMENT OF CHARGES

2.8.1. Interruptions

2.8.1.1. For the purpose of applying this provision, the word “interruption” shall mean the inability to complete calls either incoming or outgoing or both. Interruption does not include, and no credit allowance shall be given for, service difficulties such as busy circuits or other network and/or switching capacity shortages or as further defined.

2.8.1.2. The credit allowance will not apply where service is interrupted by the negligence or willful act of the Customer or the failure of facilities provided by the Customer, or where the Company, pursuant to the terms of the Price List, suspends or terminates service because of unlawful or improper use of the facilities or services, or any other reason covered by the Price List or as further defined.

2.8.1.3. No credit allowance shall be made for interruptions in service due to electric power failure where, by the provisions of this Price List or as further defined, the Customer is responsible for providing electric power.

2.8.1.4. Should any such error, mistake, omission, interruption, failure, delay, defect or malfunction of equipment or facilities result in an interruption or failure of jurisdictional service to a Customer for more than eight hours during a continuous 24-hour period after being reported by the Customer or discovered by the Company, whichever occurs first, an appropriate adjustment shall be made automatically by the Company to the Customer’s bill. The adjustment, unless further defined, shall be a credit allowance on the monthly bill of 1/30 of the Price List monthly rate for all jurisdictional services and facilities affected by such interruption or failure for each occurrence of more than eight hours in a continuous 24-hour time period after notice by the Customer or discovery by the Company, whichever occurs first. Credit allowances in any billing period shall not exceed the total charges for that period for the services and facilities that are affected by the interruption or failure.

2.8.1.5. In addition and not by way of limitation, in the event that there is a delay in installation of service, if any service date is promised, or any failure to service or properly maintain the items of service as provided for herein concerning maintenance or any failure to repair or replace the items of service as provided in 2.8.1.4., then the refunds provided in 2.8.1.4. shall be the exclusive remedy against the Company.

2.8.1.6. Under all circumstances set forth above, the Company shall not be liable to the Customer or any other persons for special, incidental, punitive or consequential damages, losses, expenses, or costs, if any.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.9. LIABILITY OF THE COMPANY

2.9.1. Service Liabilities

THE COMPANY MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, EXCEPT THOSE EXPRESSLY SET FORTH HEREIN.

In view of the fact that the Customer has exclusive control of their communications over the facilities furnished them by the Company, and of the other uses for which facilities may be furnished them by the Company, and because of unavoidable errors incidental to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the following terms, conditions and limitations.

2.9.2. Limitations

2.9.2.1. Except as otherwise provided herein, no liability for direct, indirect, incidental, reliance, special, exemplary, punitive, consequential or multiple damages (including without limitation for any lost business opportunity/profits) shall attach to the Company, its officers, directors, agents, servants or employees, for damages or costs arising from errors, mistakes, omissions, interruptions, failures, delays, or defects or malfunctions of equipment or facilities, in the course of establishing, furnishing, maintaining, rearranging, moving, terminating, or changing the service(s) or facilities, including the obtaining or furnishing of information in respect thereof or with respect to the Customer (including without limitation Customer's end user customers) of the service or facilities, in the absence of willful and wanton conduct, whether a claim for such liability is premised upon breach of contract, breach of warranty, fulfillment of warranty, negligence, strict liability, misrepresentation, fraud, or any other theories of liability.

2.9.2.2. The sole and exclusive remedy against the Company for an interruption or failure of service resulting from errors, mistakes, omissions, interruptions, failures, delays, or defects or malfunctions of equipment or facilities shall be as follows: The Company shall repair or replace any item of its facilities or defective part thereof at its expense. The Company shall have the option to decide whether to repair or to replace its facilities.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.9 LIABILITY OF THE COMPANY (CONT'D.)

2.9.3. Transmission

2.9.3.1. The Company does not transmit messages but offers the use of its facilities, when available, for communications between parties, each of whom is present at a telephone or communications device.

2.9.3.2. The 9-1-1 emergency telephone number quickly summons emergency service in a crisis. When persons dial “9-1-1” to report an emergency, the telephone number (including non-published numbers) and address may be automatically displayed on a viewing screen located at the 9-1-1 answering centers and the call may also be recorded. The display of the calling number and address enables the emergency agency to quickly locate the caller if the call is disrupted by the crisis.

2.9.3.3. The 9-1-1 caller forfeits the privacy afforded by non-listed and non-published service to the extent that the telephone number, the address and name associated with the originating station location are furnished to the PSAP. Telephone subscribers (published and non-published) consent to the storage and retention of the subscriber name, telephone number and address in the database management systems and also consent to access of this information by Public Agencies for the sole purpose of responding to emergency calls.

2.9.3.4. The Customer indemnifies and saves the Company harmless against claims for libel, slander, or infringement of copyright or trade secrets from the material transmitted over the Company’s facilities; against claims for infringement of patents arising from combining with, or using in connection with, facilities of the Company, apparatus and systems of the Customer, and against all other claims arising out of any act or omission of the Customer in connection with facilities provided by the Company.

2.9.4. Connections With Other Telecommunications Providers

When the facilities or services of other companies are used in establishing connections to points or services provided to Customers not reached by the Company’s facilities, the Company is not liable for any act or omission of the other company or companies and their agents, servants, or employees.

2.9.5. Defacement of Premises

The Company shall not be liable for any defacement of, or damage to, Customer’s premises resulting from the existence of the Company’s instruments, apparatus, or wiring, on such premises, or caused by the installation or removal, when such defacement or damage is not the result of the negligence of the Company.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.9. LIABILITY OF THE COMPANY (CONT'D.)

2.9.6. 9-1-1

The Company shall not incur any liability, direct or indirect, to any person who dials or attempts to dial the digits “9-1-1” or to any other person affected by the dialing of the digits “9-1-1.”

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.10. MAINTENANCE AND REPAIR

2.10.1. All ordinary expense of maintenance and repair in connection with services provided by the Company is borne by the Company unless otherwise specified.

2.10.2. Nonrecurring charges do not apply to repair services.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.11. DATABASE ERRORS OR OMISSIONS

- 2.11.1. Notwithstanding any other provisions herein, the Company expressly denies any representation or warranty that database records, data, or other information created, utilized or furnished hereunder will be furnished without interruption or free of errors or omissions. In no event shall the Company, its officers, directors, agents, servants, or employees, be liable for direct, incidental, punitive, or consequential damages for damages, injuries or costs arising from any such interruptions, errors, or omissions, whether a claim for such liability is premised upon breach of contract, breach of warranty, fulfillment of warranty, negligence, strict liability, misrepresentation, fraud, or any other theories of liability.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.12. RESPONSIBILITIES OF THE CUSTOMER

2.12.1. Lost or Damaged Equipment

2.12.1.1. In the case of damage to, or destruction of, any of the Company's equipment, instruments, apparatus, accessories or wiring due to the negligence or willful act of the Customer and not due to ordinary wear and tear, the Customer will be held responsible for the cost of restoring the equipment, instruments, apparatus, accessories or wiring to its original condition, or of replacing the equipment, instruments, apparatus, accessories or wiring destroyed.

2.12.1.2. The Customer is required to reimburse the Company for loss, through theft of equipment, instruments, apparatus, accessories or wiring furnished to the Customer.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 - GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.13. BUILDING SPACE AND ELECTRIC POWER SUPPLY

- 2.13.1. All operations at the Customer's premises will be performed at the expense of the Customer and will be required to conform to whatever rules and regulations the Company may adopt as necessary in order to maintain a proper standard of service.
- 2.13.2. The Customer is required to provide adequate building space, lighting and atmospheric control for the proper installation, operation and maintenance of the equipment and facilities placed by the Company on his premises.
- 2.13.3. When Company equipment, installed on the Customer's premises, requires power for its operation, the Customer is required to provide such power. The Customer is required to provide adequate commercial power, wiring, electrical outlets, and environmentally appropriate conditions necessary for the proper operation of the Company's equipment on the Customer's premises.
- 2.13.4. The Customer is responsible for arranging access to its premises at times mutually agreeable to the Company and the Customer when required for the Company's personnel to install, repair, maintain, program, inspect or remove equipment with the provision of the Company's services.
- 2.13.5. The Customer shall ensure that the equipment and/or system is properly interfaced with Company facilities or services, that the signals emitted into the Company's network are of the proper mode, bandwidth, power, and signal level for the intended use of the Customer and in compliance with the criteria set forth in this Price List and that the signals do not damage equipment, injure personnel, or degrade service to other Customers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, the Company will permit such equipment to be connected with its channels without use of protective interface devices. If the Customer fails to maintain the equipment and/or the system properly, with resulting imminent harm to Company equipment, personnel, or the quality of service to other Customers, the Company may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, the Company may, upon five (5) days written notice via first class U.S. mail, terminate the Customer's service.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.14. SPECIAL TAXES, FEES, CHARGES

- 2.14.1. Rate schedules of the Company in Florida do not include any municipal, license, franchise, or occupation tax, costs of furnishing service without charge, or similar taxes or impositions on the Company.
- 2.14.2. The amount paid by the Company to a municipality as a cost of doing business within that municipality under a franchise, or pursuant to a license or occupation tax levied by the municipality, will be added to the bill for service to the Company's Customers within such municipality for the privilege of employment within the municipality shall be so surcharged.
- 2.14.3. A monthly surcharge to recover the additional expense related to any municipal, license, franchise, or occupation tax, costs of furnishing service without charge, or similar taxes will be added to Customer bills for all recurring and nonrecurring rates and charges for all intrastate service except returned check charges and late payment charges.
- 2.14.4. Introduction, cancellation, or modification of a surcharge will be effective on the date of the Customer's first bill rendered after the effective date of the change.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 2 – GENERAL REGULATIONS – CONDITIONS OF OFFERING (CONT'D.)

2.15. PROMOTIONAL OFFERINGS

2.15.1. Nonrecurring Charges

During specific promotional periods not to exceed 90 days, the offer may be made to reduce nonrecurring charges on a non-discriminatory basis. Each such offer shall be briefly described in a sequentially numbered informational letter to the Commission on seven days notice.

2.15.2. Recurring Rates and Charges

For the purpose of encouraging Customers to try different telecommunications services, the Company may offer promotional programs. The purpose of these programs is to waive or reduce recurring rates or charges to introduce present or potential Customers to Intrado Communications' product(s) or service(s) not currently being received by the Customer. The Company may also offer incentives or other benefits to Customers to encourage the purchase or retention of any such service or product. Any such offers will be made on a non-discriminatory basis but are subject to service and facility availability and are subject to Commission rule requirements and state statutes.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES**3.1. INTELLIGENT EMERGENCY NETWORK® SERVICE**

Intelligent Emergency Network Services are telecommunications services that permit a Public Safety Answering Point (PSAP) to receive emergency calls placed by dialing the number 9-1-1 and/or emergency calls originated by personal communications devices.

Intelligent Emergency Network Services support interconnection to other telecommunications service providers for the purpose of receiving emergency calls originated in their networks. Intelligent Emergency Network Services include 9-1-1 call routing and transfer services that use a call management system to either directly perform the selective routing of an emergency call to the appropriate PSAP, or may be used to hand-off the call to a separate 9-1-1 Service Provider (possibly a legacy 9-1-1 selective router) for call completion to the appropriate PSAP. Intelligent Emergency Network Services also provide call bridging and post call activity reporting.

Intelligent Emergency Network 9-1-1 Routing includes a comprehensive data management and delivery service, ALI Management Services. ALI Management Services provide PSAPs more control over ALI data management with highly accurate data and superior reporting. ALI Management allows Customers to optimize their 9-1-1 operations. ALI Management Services offers superior features such as “drill down” metric reporting capabilities for wireline, wireless, and VoIP 9-1-1 calls. The solution includes a web interface for data queries and MSAG management.

Intelligent Emergency Network Services are offered subject to the availability of facilities. The Customer is the Governing Authority that orders service and is responsible for the payment of charges and compliance with the terms and conditions of this Price List.

Intelligent Emergency Network Services are only available under contract with a minimum term agreement of one year.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.1. INTELLIGENT EMERGENCY NETWORK SERVICE (CONT'D.)

3.1.1. 9-1-1 Routing Service

9-1-1 Routing is a public safety grade, specialized managed network for processing 9-1-1 calls that allows the PSAP to accommodate new technologies while simultaneously enabling more control over 9-1-1 call routing operations. The Company's solution utilizes a redundant, secure network. Facilities and nodes are geographically diverse and are equipped with physically redundant data communications and power equipment that allow for continuous operation and reliability. 9-1-1 Routing delivers emergency calls from both traditional and non-traditional voice networks. In addition to processing traditional TDM voice traffic, 9-1-1 Routing also provides Internet Protocol based call processing capabilities.

Intrado Communications' 9-1-1 Routing Service facilitates interoperability and allows for specialized management of different call types. The Customer can designate, capture, and report on specific instructions for handling each call type:

Wireline: Supports traditional wireline emergency calls originating from an end office, central office and/or enterprise private branch exchange (PBX) over standard based Centralized Automatic Message Accounting (CAMA), both analog and digital interfaces, SS7 and PRI interfaces.

Wireless: Supports delivery of wireless 9-1-1 calls to assigned PSAPs. Carriers having the capability to provide wireless handset ANI, cell site and sector and/or longitudinal and latitudinal (x,y) coordinates in the appropriate format, may connect directly to the 9-1-1 Routing Service.

VoIP: Supports delivery of voice over Internet protocol (VoIP) emergency calls originating from a VoIP Service Provider. VoIP Service Providers capable of providing calls and data in the appropriate format can connect directly to the 9-1-1 Routing Service.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.1. INTELLIGENT EMERGENCY NETWORK SERVICE (CONT'D.)

3.1.2. 9-1-1 Routing Service Features

A. Automatic Number Identification (ANI)

Automatic Number Identification (ANI) is the feature by which the telephone number or other related routing (pANI) number associated with an inbound 9-1-1 caller is received by Intelligent Emergency Network 9-1-1 Routing and passed on to the proper PSAP. The ANI is also used to determine the proper PSAP to receive the inbound call.

B. 9-1-1 Routing Options

Selective Routing

The routing of a 9-1-1 call to the proper PSAP based upon the location of the caller. Selective Routing is typically accomplished by mapping the ANI to an ESN that has been derived based on the caller's location. The ESN maps to a specific routing rule that identifies the PSAP and possible alternative destinations.

Trunk Only Routing

Inbound trunks, typically from a given Telecommunications Carrier, can be designated to route all calls to a given destination, usually a specific PSAP. If Trunk Only Routing is not specified the system will attempt to perform Selective Routing.

Default Routing

When an incoming 9-1-1 call cannot be selectively routed due to the reception of an ANI number that is either not stored in the selective router data base, unintelligible ANI or when no ANI number is passed, a predetermined call route will be chosen and the caller will be terminated to the PSAP based upon the incoming trunk facility the call is passed over.

PSAP Abandonment Routing

If a situation arises where a PSAP must be closed or evacuated, this feature provides specific routing instructions for delivery of calls to recovery locations.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.1. INTELLIGENT EMERGENCY NETWORK SERVICE (CONT'D.)

3.1.2. 9-1-1 Routing Service Features (Cont'd.)

C. 9-1-1 Transfer Options

Fixed Transfer

Fixed transfer is a feature which enables a PSAP call taker to transfer a 9-1-1 call to a secondary destination (possibly another PSAP) by dialing a pre-assigned speed dial code or by use of a single button on an approved Customer telephone system that dials the appropriate code.

Selective Call Transfer

Selective Call Transfer is a feature enabling a PSAP call taker to transfer an incoming 9-1-1 call to another agency by dialing a pre-assigned speed dial code associated with police, fire or medical agencies or by use of a single button on an approved Customer telephone system that dials the appropriate code. The specific transfer destination is determined by the caller's originating location as specified by the ESN.

Manual Transfer

A PSAP call taker may transfer an incoming call manually by depressing the hook switch of the associated telephone or the "add" button on approved Customer telephone system, and dialing either an appropriate seven or 10-digit telephone number.

Alternate Routing

The Overflow Call Disposition transfer feature enables the ability for callers to be terminated either to a previously designated alternate call center, a prerecorded message or to a busy tone when all PSAP trunks are busy.

D. Call Event Logging

The Call Event Logging feature delivers reporting information containing the ANI received from a 9-1-1 call, the identity of the incoming trunk the Selective Router received the call over, the identity of the outgoing PSAP trunk the call is terminated to, and the date and time the call was delivered to its target destination, transferred and/or disconnected.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.1. INTELLIGENT EMERGENCY NETWORK SERVICE (CONT'D.)

3.1.3. Ali Management Service

- A. MSAG Management
The Company provides a data management and administration tool that automates the viewing and communication of updates, insertions, and deletions to the MSAG database.
- B. MSAG Build Services
Intrado Communications acts as the facilitator with the addressing authority in the creation and maintenance of the MSAG utilizing recognized National Emergency Number Association (NENA) recommended guidelines.
- C. English Language Translation (ELT) Management
ELT information provides the names of fire, EMS and police jurisdictions associated with each ESN so that it may be delivered with the ALI to the PSAPs at the time of the E9-1-1 call. The requests are validated for accuracy and either updated into the database, or referred back to the PSAP for resolution. Upon completion of the transaction, notification is provided to the Customer
- D. Subscriber Record Management
Subscriber Record Management is the collection of service order records from Telephone Service Providers (TSPs), validation of those records against the MSAG, and storage of the records for the generation of the ALI database.
- E. ALI Database Updates
After processing and validating subscriber record updates, the Company posts ALI records for call routing and for retrieval and display by the PSAP during 9-1-1 calls.
- F. ANI/ALI Discrepancy Resolution
An ANI/ALI discrepancy occurs when an ALI record delivered to a PSAP does not match the information of the caller. Intrado Communications will investigate ANI/ALI discrepancy reports and refer each discrepancy to the respective TSP for resolution.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.1. INTELLIGENT EMERGENCY NETWORK SERVICE (CONT'D.)

3.1.3. Ali Management Services (Cont'd.)

- G. Misroute Resolution
An ANI/ALI misroute occurs when a 9-1-1 call is delivered to the incorrect PSAP. The Company investigates ANI/ALI misroute reports and refers each misroute report to the TSP for resolution.
- H. No Record Found (NRF) Resolution
An NRF occurs when the ANI provided does not exist in the ALI database and/or when NRF is displayed at the PSAP. The Company will resolve or refer each NRF to the respective TSP for resolution.
- I. Local Number Portability (LNP) Processing
Intrado Communications supports LNP, which allows subscribers to switch from one TSP to another without changing their phone numbers.
- J. ALI Delivery
ALI Delivery provides location information via the ALI Data Access Connections to a PSAP during a 9-1-1 call.
- K. Data Support of Wireless and VoIP E9-1-1
Intrado Communications' database management systems support both Phase I and Phase II wireless and VoIP E9-1-1 call processing. This includes the E2 interface used by wireless service providers to communicate 9-1-1 caller location information to the ALI database.
- L. ALI Metrics Reporting
The Company provides access to reports that provide details on data transactions, the number of records processed, and the number of errors.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.1. INTELLIGENT EMERGENCY NETWORK SERVICE (CONT'D.)

3.1.4. 9-1-1 Exchange Access

9-1-1 Exchange Access provides one way call delivery trunks from the 9-1-1 Routing Service to the PSAP. The 9-1-1 Exchange Access trunks are conditioned to allow delivery of ANI to the PSAP. They also allow signaling from the PSAP to the 9-1-1 Routing Service to invoke special features of the 9-1-1 Routing Service, such as transfer, speed dialing, etc.

3.1.5. Ali Data Access Connections

ALI Data Access Connections provide the PSAP network access to the ALI Database for ALI Delivery.

3.1.6. Diverse Facility Routing

Where facilities exist and a Customer wishes to subscribe to such services, the Company will arrange for diverse routing over alternate voice and/or data paths to reduce the potential for service failure as a result of an interruption of transport facilities.

Diverse routing is supplied to the extent made possible as determined by the availability of current facilities. Diversity at Customer locations and additions to existing facilities to obtain diversity, where feasible within E9-1-1 network and as determined by the respective facility provider, will be based upon the costs incurred by the respective facility provider and will be supplied upon Customer request.

LOCAL EXCHANGE TELECOMMUNICATIONS

3.2. INTELLIGENT EMERGENCY NETWORK 9-1-1 ROUTING RULES & REGULATIONS

- 3.2.1. The Intelligent Emergency Network Service Customer may be a municipality, other federal, state or local governmental unit, an authorized agent of one or more municipalities or other federal, state or local governmental units to whom authority has been lawfully delegated. The Customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the served territory.
- 3.2.2. Intelligent Emergency Network Service is provided by the Company where facilities and operating conditions permit.
- 3.2.3. Intelligent Emergency Network Service is not intended as a total replacement for the local telephone service of the various public safety agencies which may participate in the use of this service. The Customer must subscribe to additional local exchange services for purposes of placing administrative outgoing calls and for receiving other calls.
- 3.2.4. Application for Intelligent Emergency Network Service must be executed in writing by the Customer. If execution is by an agent, satisfactory evidence of the appointment must be provided in writing to the Company. At least one local law enforcement agency must be included among the participating agencies.
- 3.2.5. Intelligent Emergency Network Service is provided solely for the benefit of the Customer operating the PSAP as an aid in handling assistance calls in connection with fire, police and other emergencies. The provision of Intelligent Emergency Network Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being for the benefit of or creating any relationship with or any Company obligation direct or indirect, to any third person or legal entity other than the Customer.
- 3.2.6. The Company does not undertake to answer and/or forward 9-1-1 or other emergency calls, but furnishes the use of its facilities to enable the Customer's personnel to respond to such calls.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

- 3.2. INTELLIGENT EMERGENCY NETWORK 9-1-1 ROUTING RULES & REGULATIONS (CONT'D.)
- 3.2.7. The rates charged for Intelligent Emergency Network Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The Customer shall make such operational tests as, in the judgment of the Customer, are required to determine whether the system is functioning properly for its use. The Customer shall promptly notify the Company in the event the system is not functioning properly.
- 3.2.8. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures, or malfunctions of this service or any part thereof shall not exceed an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative.
- 3.2.9. The Customer must furnish the Company its agreement to the following terms and conditions.
- A. That all 9-1-1 or other emergency calls will be answered on a 24-hour day, seven-day week basis.
 - B. That the Customer has responsibility for dispatching the appropriate emergency services, or will undertake to transfer all emergency calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
 - C. That the Customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to their PSAP by calling parties.
 - D. That the Customer will subscribe to local exchange service at the PSAP location for administrative purposes, for placing outgoing calls, and for receiving other calls.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.2. INTELLIGENT EMERGENCY NETWORK 9-1-1 ROUTING RULES & REGULATIONS (CONT'D.)

3.2.10. When the ALI Management Service is provided, the Customer is responsible for:

- A. Providing information regarding the jurisdictional boundaries associated with all involved public safety agencies.
- B. Supporting the creation of a master address file for use in validating subscriber address information and application of appropriate jurisdictional responsibility.
- C. Defining the unique combinations of public safety agencies (police, fire, medical, etc) responsible for providing emergency response services in any specific geographic location.

3.2.11. When the 9-1-1 Routing feature is provided, the Customer is responsible for identifying primary and secondary PSAPs associated with the unique combinations noted in 5.2.10.C. above and providing the access or telephone numbers required to support the selective transfer feature of 9-1-1 Routing Service.

3.2.12. After establishment of service, it is the Customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file, and to advise the Company of any changes in street names, establishment of new streets, closing and abandonment of streets, changes in police, fire, emergency medical or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of 9-1-1 calls to the proper PSAP.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.2. INTELLIGENT EMERGENCY NETWORK 9-1-1 ROUTING RULES & REGULATIONS (CONT'D.)

3.2.13. The following terms define the Customer's responsibilities with respect to any information provided by the Company to the Customer as part of ALI Management Service:

- A. Such information shall be used by the Customer solely for the purpose of aiding the Customer in more accurately identifying, updating and/or verifying the addresses of subscribers within the Customer's serving areas in connection with the Customer's provision of emergency response services.
- B. Customer shall strictly limit access to the information to those authorized employees of the Customer with a need to know and those employees actually engaged in the provision of emergency assistance services.
- C. Customer shall use due care in providing for the security and confidentiality of the information.
- D. Customer shall make no copies of the information except as may be essential for the verification of emergency assistance services.

3.2.14. Each Customer agrees to release, indemnify, defend and hold harmless the Company from any and all loss, claims, demands, suits, and other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party or person: (1) for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the Customer or others, and which arises out of the negligence or other wrongful act of the Company, the Customer, its user agencies or municipalities or employees or agents of any one of them, or (2) for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of Intelligent Emergency Network Service features and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the telephone number used by the party or parties accessing Intelligent Emergency Network Service hereunder, or (3) arising out of any act or omission of the Customer, in the course of using services provided pursuant to this Price List.

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.4. ENTERPRISE E9-1-1 SERVICE

3.4.1. Description

Enterprise E9-1-1 Service is an offering that enables delivery of E9-1-1 calls originating from telephone stations/lines served by a multi-line private switch.

3.4.2. Enterprise E9-1-1 Service Regulations

- A. Enterprise E9-1-1 Service is furnished subject to availability of facilities.
- B. Customer is responsible for installation of sufficient voice grade facilities (minimum of two) to maintain a P.01 grade of service from the private switch location to Company's E911 network.
- C. Customer's private switch must be capable of forwarding ANI of a station/line served by Customer's private switch to Company's network when 9-1-1 is dialed. This ANI may represent an individual station or group of stations located together.
- D. Customer is responsible for verifying service address information of stations for insertion in the ALI database through MSAG provided by Company. Customer is responsible for coordinating with Company to provide address information in an industry standard format, and may provide telephone number and service address updates no more frequently than one time per day.
- E. Enterprise E9-1-1 Service information consisting of name, address and telephone number of private switch users is confidential. Customer is permitted to provide private switch user sub-location information; e.g., floor, room number, apartment number, etc.

SECTION 3 – EMERGENCY SERVICES (CONT'D.)

3.4. ENTERPRISE E9-1-1 SERVICE (CONT'D.)

3.4.2. Enterprise E9-1-1 Service Regulations (Cont'd.)

- F. Private switch users originating 9-1-1 calls using Company's Enterprise E9-1-1 Service forfeit the privacy afforded by nonlisted and nonpublished services offered by local exchange providers to the extent such information is furnished to the PSAP and/or to the Company.
- G. Rates charged for Enterprise E9-1-1 Service do not include, and Company does not undertake, the tasks of constant inspection or monitoring of facilities to discover errors, defects or malfunctions in the service. It is the responsibility of Customer to conduct such operational tests as it deems necessary to determine if service is functioning properly for its use, and to report any errors, defects or malfunctions Customer discovers to the Company.
- H. Company's liabilities for interruption, failure, errors, acts of omission or other occurrences related to the provision of Enterprise E9-1-1 Service shall be limited to the same extent as set forth elsewhere in this price list regarding E9-1-1 Service.
- I. Enterprise E9-1-1 Service information provided to a PSAP in connection with an emergency call shall be used solely for the purpose of public safety responding to emergency calls or to originate a call back to the party dialing 9-1-1.

SECTION 4 - COMMUNICATIONS SERVICE PROVIDER (CSP) E9-1-1 ACCESS SERVICE

4.1. DESCRIPTION

CSP E9-1-1 Access Service is an offering that enables Customer to interconnect to Company's network at Company Points of Interconnection (POIs) for the delivery of Customer's end user 9-1-1 call to the appropriate PSAP.

4.2. GENERAL

- 4.2.1. The terms, conditions and rates for CSP E9-1-1 Access Service described in this Price List are applicable to Customers in the absence of an executed and validly effective interconnection agreement for similar services entered into by Customer and Company that is in effect prior to the effective date of this Price List, or until such time as there is an executed and validly effective interconnection agreement between the parties.
- 4.2.2. Where there is a conflict between this Price List and a validly executed and effective interconnection agreement between Customer and Company, the rates terms and conditions of such interconnection agreement shall control.
- 4.2.3. Customer and Company will comply with all applicable federal, state and local E9-1-1 service performance rules, including required grade of service.

LOCAL EXCHANGE TELECOMMUNICATIONS

SECTION 4 - COMMUNICATIONS SERVICE PROVIDER (CSP) E9-1-1 ACCESS SERVICE
(CONT'D.)

4.3. REGULATIONS

4.3.1. Network Arrangements

- A. Customer will provide a minimum of one DS1 transport facility to a minimum of two (2) geographically diverse Intrado Communications POIs that are dedicated for termination of Customers 9-1-1 calls to Company's network.
- B. Customer will order from Company a sufficient number of DS1 and/or DS0 channel termination facilities (minimum of two DS0s) to terminate Customer-provided transport facilities at Company POI(s) using Company's Access Service Request (ASR) process.
 1. Company's ASR Process guidelines can be found at:
http://www.intrado.com/assets/documents/TSP_Website_Guide.pdf
 2. Company's ASR Ordering Process can be found at:
<http://www.intrado.com/main/intradocommunications/InterconnectionServices/tspinterconnections-services/>
- C. Customer will use Signaling System 7 ("SS7") protocol on DS0 interconnections at Company's POI. Where SS7 protocol is unavailable, other types of interconnection signaling will be utilized on an ICB basis and may include additional Customer charges.

SECTION 4 - COMMUNICATIONS SERVICE PROVIDER (CSP) E9-1-1 ACCESS SERVICE
(CONT'D.)

4.3. REGULATIONS (CONT'D.)

4.3.2. Dynamic ANI/ALI Arrangements

- A. Customer must enter into a separate “Dynamic ANI/ALI Data and Steering Agreement” with Company that describes the terms, conditions and methodology required in order to interconnect Customer’s Dynamic ANI/ALI links to Company’s ALI system(s).
- B. If Customer uses a third party Dynamic ANI/ALI provider, such third party Dynamic ANI/ALI provider must enter into a separate “Dynamic ANI/ALI Data and Steering Agreement” that describes the terms, conditions and methodology required for the third party Dynamic ANI/ALI provider to interconnect their respective Dynamic ANI/ALI links to Company’s ALI system(s).

4.4. RECORD PROCESSING REGULATIONS

4.4.1. General

- A. Upon receiving Customer’s written request, Company will provide one (1) copy per year of the Governing Authority’s most current MSAG at no charge. Customer requests for additional copies may be subject to a charge.
- B. Company will make available daily MSAG updates for retrieval by Customer using Company’s Delta MSAG process for MSAG updates. It is the responsibility of the Customer to provide MSAG-valid addresses on all Customer records submitted by Customer. Company’s Delta MSAG process for MSAG daily updates is available at:

SECTION 4 - COMMUNICATIONS SERVICE PROVIDER (CSP) E9-1-1 ACCESS SERVICE
(CONT'D.)

4.4. RECORD PROCESSING REGULATIONS (CONT'D.)

4.4.2. General ANI/ALI Data Management Regulations that are applicable to all ANI/ALI delivery methods

- A. Customer will provide to Company one (1) time per year, at no charge, an electronic file containing all active Customer end user records and/or Shell Records for comparison to the Customer information stored in the Company's ANI/ALI database.
- B. After initial load of Customer's end user records or Shell Records, Customer must update such records on a daily basis as changes warrant. Additions, deletions or changes must be submitted to Company within one (1) business day of service transaction.
- C. To facilitate E9-1-1 record processing and error resolution, Customer and Company will each provide the other contact information for their respective database administration organizations.

4.4.3. Standard ANI/ALI Data Management

- A. End user records provided by Customer must be delivered in a NENA compliant format and must be compatible with Company's ALI Data Management Guide which is available at:

<http://www.intrado.com/main/intradocommunications/InterconnectionServices/tspalidatamanagement/>
- B. Company will return to the Customer all end user records that fail E9-1-1 processing. Customer will retrieve, correct and resubmit returned end user records failing E9-1-1 processing to Company within one (1) business day.
- C. Company will not charge Customer for end user record loading and E9-1-1 processing. Customer shall provide at no cost to Company Customer end user records and resubmitted end user records that were returned for corrections.

4.5. CUSTOMER RESPONSIBILITIES (CONT'D.)

- 4.5.6. Customer will inform the Company Network Operations Center (NOC) of any 9-1-1 service-affecting network or data problem immediately upon detection of such problem by Customer and shall fully cooperate with Company to resolve and correct such problems.
- 4.5.7. Customer must respond within one (1) business day to Company inquiries sent to Customer for resolution of misrouted emergency calls.
- 4.5.8. CSP will establish point(s) of contact for activities involving rearrangement of facilities and/or activities affecting Customer's POI, or any changes involving NPA splits or Customer end user SOI data.

4.6. COMPANY RESPONSIBILITIES

- 4.6.1. Except as provided in Sections 6.2.1 and 6.2.2, Company responsibilities described in this section are in addition to all other applicable Company responsibilities described in other sections of this Price List.
- 4.6.2. Company will provide Customer with the 11-character CLLI code for POI where Customer's transport facilities will be terminated on Company's network. CLLI codes for each Company POI and POI pairings, and related PSAP information, can be found at:

www.west.com/safety-services
- 4.6.3. Company will maintain diversity when terminating Customer trunks at Company's POI in order to eliminate single points of failure.
- 4.6.4. Company will provide Customer with Company NOC contact information that is available on a 24-hour, 7-day a week basis to assist with trunk testing and/or resolution of problems on facilities between Customer POPs and Company POIs.
- 4.6.5. Company will administer ALI steering tables for all Customers using Dynamic ANI/ALI call delivery.

(CONT'D.)

4.8. CSP E9-1-1 TRANSPORT SERVICE

4.8.1. Description

CSP E9-1-1 Transport Service permits Customers to use Company-provided transport facilities to deliver 9-1-1 calls placed by Customer's end users to Company's Selective Router for termination to the appropriate PSAP.

4.8.2. General

- A. The terms, conditions and rates for CSP E9-1-1 Transport Service described in this Price List are applicable to Customers in the absence of an executed and validly effective interconnection agreement for similar services entered into by Customer and Company that is in effect prior to the effective date of this Price List, or until such time as there is an executed and validly effective interconnection agreement between the parties.
- B. Where there is a conflict between this Price List and a validly executed and effective interconnection agreement between Customer and Company, the rates terms and conditions of such interconnection agreement shall control.
- C. CSP E9-1-1 Transport Service is available to Customers using a third party to aggregate and/or transit and transport 9-1-1 calls placed by Customer's end users to a Company Meet-Point that is not physically located at a Company POI on Company's network.
- D. The delivery of Customer's end user 9-1-1 calls to a Company Meet-Point by a third party aggregator or transit provider constitutes Customer's acceptance of the terms, conditions and rates described in this Price List.
- E. Customer and Company will comply with all applicable federal, state and local E9-1-1 service performance rules, including required grade of service.
